Jules enjoys drinking

Carignan Vieilles Vignes, France	28.50	20.50	10.30	5.90
Like losing one's pants rolling in the hay! Dangerous but possibly a once in a lifetime opportunity...!				
Chateau Minvielle Rouge, Bordeaux	34.30	24.50	12.50	6.80
When a beret, an "Opinel" pen knife, a wooden stool and a corn rolled "Gitanes" cigarette becomes compulsory- "Mon dieu Jules" Merci!				
Côtes du Rhone, Victor Gonnet Vigneron	36.40	25.90	12.90	6.80
Merde alors! Gouteux, Juteux, ze very best!				
Abymes Domaine Jean Perrier, Savoie	35.90	25.50	13.80	7.20
Il a en bouche une rondeur envoutante, sur la langue un perlant chatouillant et sa robe est d'une couleur jaune pâle à reflets verts et Jules enjoyed it every Monday morning with Josette.				
Vermentino, Languedoc-Roussillon, France	26.40	18.40	9.50	5.50
When I was younger Vermentino was all the rage, then it vanished and now Jules brings it back. I feel young again. Youpi!				
Tannat, AOP Madiran	39.90			
Do you fancy an explosion on your palate? Reach for this full bodied wine, with flavour of currents, plum, liquorice, smoked meats and black cardamom				
Côtes de Provence Rosé, La Grande Bouquière	36.50			
The real McCoy Jules loves this rosé: A soft, curvaceous and pleurably pink Rosé.				
Côtes du Rhone Blanc Victor Gonnet	36.30	25.70	12.90	6.80
The main supply and favorite wine to the Popes 2000 years ago and still going strong! Would you doubt a group of Popes?				
Château Treytins, St Emilion	41.20			
The very first time, our supplier had to send us another sample bottle, we had to taste it twice because we could not believe it was so good !

FRANCE

Viognier, vieilles vignes, Mont Rocher	24.90			
A friendly gilet jaune with a lot of punch and character for a good reason. Worth fighting for!				
Picpoul de Pinet	31.90	20.50	11.50	6.20
The grapes are oval, grow in loose bunches and come off easily. That is why in the olden days, trays were often placed beneath the vines to catch falling grapes. The Languedoc answer to Muscadet. Ripey!				
Pinot Noir, Montsablé	29.50			
"God made Cabernet Sauvignon whereas the devil made Pinot Noir!" declared André Tchelistcheff, the dean of American wine makers, after a few bottles!				
Merlot Largesse	25.90	18.50	9.80	5.70
The Merlot grape produces soft & velvety plummy wines, low on tannins. Merlot means "little blackbird" and was so-called because it was said that it is the grape the blackbird guzzles first and that the bird's colour resembles the grapes and then they pressed it for juice...Cui cui cuik!				
Syrah Terres de Mandrin, Pierre Gaillard, Rhône	37.50			
The IGP Syrah comes from 10 hectares of vines planed on sandy soils in Marza and Malleva. Named after the French Folklore answer to Robin Hood 'Louis Mandrin'. Her aim is to make a lighter style than the big name villages - something approachable and instantly quaffable.

This is a wine with a strong bouquet. Better than sucking on a green piece of wood, though not far from rolling in young nettles...

It takes 100 grapes to make a glass of wine! 500 for a bottle and these are all picked by hand, somewhere high in Chile! Cold hands! Warm Wine!

It is not Alsace or Germany but it is aromatic, on the sweeter end of the spectrum with abundance of lime, lemon and a hint of spice... Think Cueca dance, ponchos and chupallas... Hand picked on the rhythmic sound of a good German folk song for authenticity and character.

Rioja Rouge Manzanos

34.20

Sit down squarely on your chair, pour yourself a glass, close your eyes and bring it to your lips. Robust, comforting, a big hug of a wine.

On June the 10th 1909, the vampire of the Carpathian Mountains was first reported in the "Neues Wiener Journal". The article chronicled in detail how terrified villagers in a town in the mountains were suffering the loss of their children at an alarming rate- This would not have happen if this wine had been invented! No red required!

Vinha Do Reino

28.50

'A river runs through it'. The wine is from the land of hot summers and little annual rainfall. With its medium body and flavour of bright red berries and bramble fruits will easily get into your heart.
